

Ryerson Program Changes and Additions from the Ryerson UNDERGRADUATE FULL TIME Academic calendars (1948-2015/16)

This timeline was originally created by Librarian Don Kinder for the Academic Structures Commission, under the auspices of the Vice Provost Academic. It was edited and updated in 2014 by Archives Technician Rosalynn MacKenzie.

The information provides a baseline for Ryerson's undergraduate full time academic evolution. It follows the creation of departments and faculties as well as the certificates, diplomas and degrees granted by them. It does not include part-time, graduate, or continuing education studies.

Please note – the information used to create this timeline was taken solely from the Full-Time Undergraduate course calendars. Therefore any program changes etc. that occurred just before or after publication would not be reflected until the following calendar year. This information should be utilized as a starting point for research – not the definitive answer.
